Hot-Dip Galvanizing Services

Our in-house hot-dip galvanizing line ensures complete quality control, rapid turnaround, & lasting performance for your steel components.

State-of-the-art facility: Maximum efficiency & capacity

Your products galvanized: We are here to galvanize what you send us

What We Galvanize

From fabricated assemblies to fasteners, nearly any carbon or low-alloy steel part can be hot-dip galvanized. Common items include:

Structural Components: Plates, brackets, angles, channels, & beams

Assemblies & Fabrications: Custom brackets, gussets, CNC-machined components, & welded anchor rod assemblies

Infrastructure Hardware: Marine hardware, splice plates, posts, & bridge connections

Miscellaneous Steel Products: Pipe supports, clamps, hangers, forged parts, ductile iron, & other fabricated parts

Fasteners: Anchor bolts, headed bolts, bent bolts, threaded rods, nuts, washers, & coupling nuts

Why Portland Bolt

In-House Galvanizing Line: Total control over quality & scheduling

Full Certification: ASTM F2329, A153, A123 compliant

Seamless Integration: Fastener manufacturing, fabrication, welding, & galvanizing under one roof

Expedited Turnaround: Shorter lead times, no outsourcing delays
